Biography

Miguel Lopez is Kelley Kronenberg's Director of Information Technology & Security. Miguel manages the day-to-day IT Operations, such as overseeing Data Communications for all offices and Data Centers. Miguel also manages the firm's network infrastructure and information security initiatives.

Miguel comes to the firm with nearly 20 years of experience in Network and System Administration, Disaster Recovery and Business Continuity Planning, and Information Security.

Before joining Kelley Kronenberg, Miguel worked at a local software company where he managed the IT department, spearheaded recertification audits, and managed multiple data centers across the U.S. and overseas. Miguel also created and managed an IT Department Mentorship Program.

Miguel earned his Associate Degree in Computer Network Engineering at the Florida Career College in Miami, Florida.
